Geoscenario Name:
PREPARING INFORMATION  Consider the clearest way to present your information. You may use
any visuals from the FOSS resources as long as you create your own caption.
Review the following checklist. Initial each step as you complete it.
I have answered my specialist questions completely in my notebook.
I made significant contributions to our group's visual
presentation.
I have explained my information to my team members so they
can answer questions other students may ask about my part of
our geoscenario.  I understand my teammates' parts well enough to answer
questions other students may ask about any part of our geoscenario.
PRESENTING INFORMATION
Each day of the presentations, half of your team will remain with your station and present the information to students while the other half of
your team explores other geoscenarios. On the second day, your team will switch roles.
